

March 2009

# UK hospital list

*from Standard Life*

**Hello.**

# Your complete hospital list

At Standard Life we have developed strong partnerships with leading, private hospital groups, ensuring your employees prompt access to private treatment.

## Giving you choice

As Group Secretary you can select either our Countrywide hospital list (with a choice of two London upgrade options) or our Guided Option list for your employees. Whichever you choose, they can only be treated at hospitals on that list so please check the colour coded sections. This is particularly important if your employees have the Guided Option list which contains Spire, BMI and Ramsay private hospitals as well as some Nuffield hospitals.

## Guided Option

Guided Option offers a significant discount due to its 'open referral' claims process. We have a special arrangement with leading hospital groups, that means with Guided Option the hospital will choose the consultant and manage your employee's treatment from beginning to end. By doing this, they can make better use of their resources and so can charge less. We then pass this saving on to you as a discount.

## London upgrades

When you choose our Countrywide hospital list you have the option of two London upgrades for an extra premium, giving your employees access to some of the most prestigious private hospitals in Central London. The hospitals for each London upgrade are shown on page 14.

## NHS wait option

Choosing our NHS wait option can also reduce your premiums. It works like this: if the NHS is able to treat your employee promptly, then they will receive treatment from them. But if they have to wait any longer than six weeks for in-patient or day-patient treatment, then we step in and pay for your employee to be treated immediately at a private hospital on their chosen hospital list.

**(This option is not available if the employee is on the Guided Option hospital list.)**

## UK hospital list

### NHS hospitals

Your plan automatically covers your employees for eligible treatment at any NHS hospital anywhere in the UK, irrespective of whether it has been included on this list. If one of your employees is admitted to an NHS hospital, but not as a private patient, then when admitted as either an in-patient or a day-patient, they will be entitled to receive a cash benefit. **(These cash payments are not available for employees with the NHS wait option where the NHS has provided treatment within the six-week wait period.)**

If they prefer, your employees can arrange to be admitted to an NHS 'paybed' as a private patient, but availability is at the discretion of the NHS and they are not guaranteed a single room or facilities of a 'hotel' standard. **(Please note this option is not available with our Guided Option hospital list.)**

### Psychiatric hospitals

If you choose our Psychiatric Treatment module, your employee may also use any of the psychiatric hospitals listed on pages 18 and 19.

### Access to the best treatment

On the very rare occasions where a condition requires treatment at facilities not available in any of the hospitals on our list, your employee's consultant may wish to refer them to another private hospital. We will do our utmost to accommodate this, but they must get written approval from us before treatment begins. We expect our customers to benefit from single room en-suite accommodation at private hospitals and NHS Private Patient Units (PPUs) across the UK. However this may not always be the case at certain facilities in Central London.

### Settling bills direct

Wherever possible, we settle bills direct with the hospital or specialist on behalf of your employees, so they do not have to worry about paying out large amounts of money. Occasionally, some hospitals will ask for payment of out-patient treatment for a consultation, and for these smaller amounts we have a simple procedure for claiming the costs back from us.

### If one of your employees need to make a claim

For total peace of mind, we will give your employee written authorisation before they incur any treatment costs. To make it easy, there is a step by step guide to claiming inside each membership pack.

## UK hospital list

### When children need care

We will always do everything we can to help your employee and their family to access the care they need. However there are limited facilities available in the private sector for the treatment of children and young people. Therefore, should any young person on the plan require treatment, please discuss their care needs with your GP or consultant who will be able to advise on the nearest available facility.

The NHS provides some of the best paediatric care in the world, however care is most likely to be provided on a general ward environment rather than in a dedicated private section.

Standard Life Healthcare reserves the right to amend this hospital list without prior notice. This list was correct at the time of printing. There may have been changes, for example, a hospital may have closed. Standard Life Healthcare can accept no responsibility for any accidental errors or omissions.

This list is effective from March 2009.

1

### Countrywide hospital list

A comprehensive selection of hospitals from leading hospital groups such as Spire, Ramsay, Nuffield and BMI, as well as other private hospitals and NHS hospitals with PPUs. And don't forget your employees can use NHS paybeds if they wish.

2

### Countrywide London upgrade

You can add a London upgrade, which means that as well as the extensive range of hospitals on the Countrywide hospital list, your employees will also be able to choose to be treated at any of seven Central London hospitals, including some of the more expensive and most prestigious.

3

### Extended London upgrade

This provides access to three more London hospitals in addition to those on our Countrywide London upgrade. This means you can choose any Central London hospital as well as all the hospitals on our Countrywide hospital list.

4

### Guided Option

If you choose the Guided Option for your employees, then this list shows the Spire, BMI, Ramsay and Nuffield hospitals that are available.

Regardless of the list you select, if your plan includes psychiatric care, your employees can also be treated at any of the dedicated psychiatric hospitals listed on pages 18 and 19.

# 1. Countrywide hospital list

<b>Bedfordshire</b>	
Bedford	BMI The Manor Hospital
